

# 3 Ways to Implement Education Galaxy into your daily instruction

## ON GRADE LEVEL

Use Education Galaxy to review and supplement practice on the standards you are teaching throughout the school year.

Assign assignments or direct students to click on the standard in their "Study Plan" as a piece of their independent practice.

Utilize the student [data trackers](#) & our student goal setting [templates](#) to help students take ownership of their learning.

## DROP DOWN A GRADE LEVEL

Teach the students who are struggling on grade level how to [drop down a grade level](#) on Education Galaxy to practice the standards they still need help with.

Each student can use the "Study Plan" to learn and practice the standards from the previous grade level that they did not master last year.

Utilize the student [data trackers](#) with last year's standards to help students take ownership of their learning.

## Recommended for 2-8

Use Liftoff during intervention time to help identify each student's foundational skill gaps.

Liftoff will identify skill gaps all the way down to K-1, not just the foundational skills they are missing from last year.

Liftoff is a support to help fix the root of the problem.

NWEA MAP only integrates with Liftoff.

Education Galaxy supports by reinforcing current grade level standards and allowing students the option to drop down a grade level to recover standards not mastered from the previous school year. Liftoff supports in recovering larger skill gaps in vertical alignment that have occurred over multiple academic years, which will ultimately help students master standards not mastered from last year and be successful in achievement on this year's current grade level standards.
